Computer science undergraduate passionate about full-stack development, with interests in developer operations and system design. Brings forth a positive attitude, keen problem-solving skills and a willingness to learn new programs, tooling and software.

Education

University of the West Indies, Mona

Kingston, Jamaica

Bachelor of Science in Computer Science

November 2028

Relevant Coursework: Object-Oriented Programming, Computing and Society

Clubs: Computing Society

Ardenne High School

Kingston, Jamaica

High School Diploma

September 2018 - July 2025

Experience

Lead Web Development Tutor

June 2026 - July 2026

Mona GeolInformatics Institute

- Taught robotics and web development fundamentals to 50+ students at the Brightstars Coding and Robotics Rock! Summer Camp.
- Prepared presentations, quizzes and tutorial sheets using Canva, Google Docs and Google Sheets to support curriculum delivery for the Brightstars Coding and Robotics Rock! Summer Camp.

Management Information Systems Summer Intern

July 2025 - August 2025

Lasco Distributors Limited

- Configured and deployed 45+ desktops and laptops for staff, ensuring devices were up-to-date and met software and security standards.
- Diagnosed and resolved 15+ hardware and networking issues weekly via in-person and remote support, reducing downtime during peak business hours.

Projects

Peer Pod - UWI AI Hackathon "AI For Good" (2026)

- Built a full-stack application in 7 hours that helps clients build freelance teams by matching people based on skills, personality and availability.
- Co-led frontend and backend development using React, Next.js, and Supabase.
- Refactored and tested AI-generated code to improve reliability and readability.
