Computer science undergraduate passionate about full-stack development, with interests in developer operations and system design. Brings a positive attitude, keen problem-solving skills and a willingness to learn new programs, tooling and software.

Education

University of the West Indies, Mona

Kingston, Jamaica

Bachelor of Science in Computer Science

November 2028

Relevant Coursework: Object-Oriented Programming, Computing and Society

Clubs: Computing Society

Ardenne High School

Kingston, Jamaica

High School Diploma

September 2018 - July 2025

Experience

Management Information Systems Summer Intern

August 2026

Lasco Distributors Limited

- Configured and deployed 45+ desktops and laptops for staff, ensuring devices were up-to-date and met software and security standards.
- Diagnosed and resolved 15+ hardware and networking issues weekly via in-person and remote support, reducing downtime during peak business hours.

Lead Web Development Tutor

June 2026 - July 2026

Mona GeoInformatics Institute

- Taught robotics and web development fundamentals to 50+ students at the Brightstars Coding and Robotics Rock! Summer Camp.
- Prepared presentations, quizzes and tutorial sheets using Canva, Google Docs and Google Sheets to support curriculum delivery for the Brightstars Coding and Robotics Rock! Summer Camp.

Projects

Peer Pod - UWI AI Hackathon "AI For Good" (2026)

- Built a full-stack application in 7 hours that helps clients build freelance teams by matching people based on skills, personality and availability.
- Co-led frontend and backend development using React, Next.js, and Supabase.
- Refactored and tested AI-generated code to improve reliability and readability.
